Attachments: WQSMA HECD PFAS.pdf

Thanks, Holly. I think HECD is still on track with their work and timetable as they presented during the 2019 national meeting (see attached). During the March 10th WQSMA meeting, one of the topics is to ask HECD for updates. Please go and "like" the agenda topic ([WQSMA Notebook and Agenda Topics](#)), and suggest any additional topics. We only have one suggestion so far.

Mario

Hi Mario, I have not heard ND or SD discuss plans to adopt aquatic life criteria for PFAS.

Do you know the status of OST/ORD aquatic life criteria development for PFAS? I recall at the WQS Coordinators' meeting in DC in September, we heard that criteria were being developed for aquatic life and human health for PFOA and PFAS. Just curious what the status is.

Thanks.

Importance: High

All,

In response to a request from Sara, could you please reach out to your regions and find out if any states are in the process of developing/planning to adopt/adopting numeric aquatic life criteria for PFAS? (As opposed to just translating a narrative into a permit limit, are states actually developing/have developed numeric ALC for PFAS to adopt in state WQS rulemaking and submit to EPA?)

Please provide any information you can collect by **COB today (Thursday, Feb 20)**.

Thanks!
Danielle
